

## TAVOLA 9c

## **GEOMORFOLOGICA E IDONEITA' ALL'USO DEI SUOLI CON IL PRGC**

A historical black and white photograph showing a small town or village situated in a valley. In the foreground, there are several buildings, including what appears to be a church with a prominent tower. The town is surrounded by rugged, rocky mountains, some of which are partially covered in snow or ice. The overall scene suggests a rural, possibly Alpine, setting from the late 19th or early 20th century.
